Subject: i would like to implement my comments

hello; gina bartlett. my name is edward hall and i am currently serving on the extended review forum member. my comments as follows: i feel every fellow californian should reduce their water usage by 40 per cent and encourage cooperation between north and south of equal water rights. southern california should not have a monopoly on water rights. the state legislature can play a vital role demonstrating active listening to all the people instead of special interests. this will be a great start of brainstorming the budget process, epa standards of water quality, and a final process of prioritizing our water resources respectfully, edward hall edwhal@hotmail.com
